

Section	Section Weighting	Sub-section	Marks Available	Overall Weighting
Project Objectives & Final Result	10%	Final results vs objective set	5	5.0%
		Performance of the final product	5	5.0%
Code Implementation	50%	Use of Python and key analytical libraries (NumPy, Pandas, Matplotlib)	10	9.1%
		Defined and accomplished data sourcing, pre-processing and evaluation	10	9.1%
		Code layout & readability	5	4.5%
		Relevance of chosen topic	5	4.5%
		Data sources utilised	5	4.5%
		Visualisation of data	10	9.1%
		Handling of anomalies	5	4.5%
		Credibility of research and analysis conclusions	5	4.5%
Project Documentation	30%	Introduction	10	5.0%
		Background	5	2.5%
		Specifications and Design	15	7.5%
		Implementation and Execution	15	7.5%
		Result Reporting	10	5.0%
		Conclusion	5	2.5%
Group Project Presentation	10%	Evidence of Teamwork	5	3.3%
		Presentation Skills	5	3.3%
		Understanding of the Project	5	3.3%
